Powerdesigner pdm视图看不到表注释 comment问题

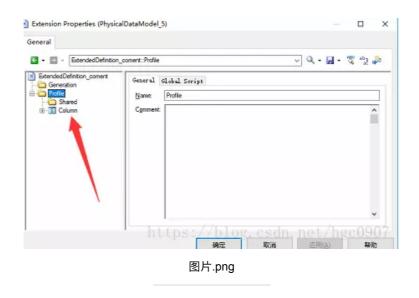

https://blog.csdn.net/hgc0907/article/details/80633371 (https://blog.csdn.net/hgc0907/article/details/80633371)

1、Model->Extensions:新建一个,然后点击箭头属性按钮

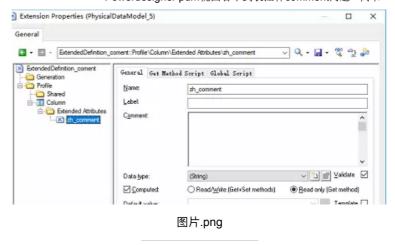

2、Profile右键,点击Add Metaclasses,然后选择Column,然后点击OK:

3、选中*Column*,右键选择*New->Extended Attribute,给一个名字,dataType选择*String,选中Computer,选中Read only**

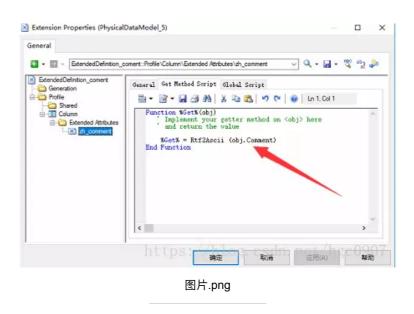

4、切换到Get Method Script* tab:把原有的代码: *

```
%Get% = ""
```

换成: %Get% = Rtf2Ascii (obj.Comment)

注意: mysql是换成%Get% = Rtf2Ascii (obj.Comment)。

5、再进入Tools->Display Preferences->Table->Advanced->Columns,看看是不是有刚刚我们新建的那个attribute啦,勾选保存即可完成。zh_comment就是我新建的属性
